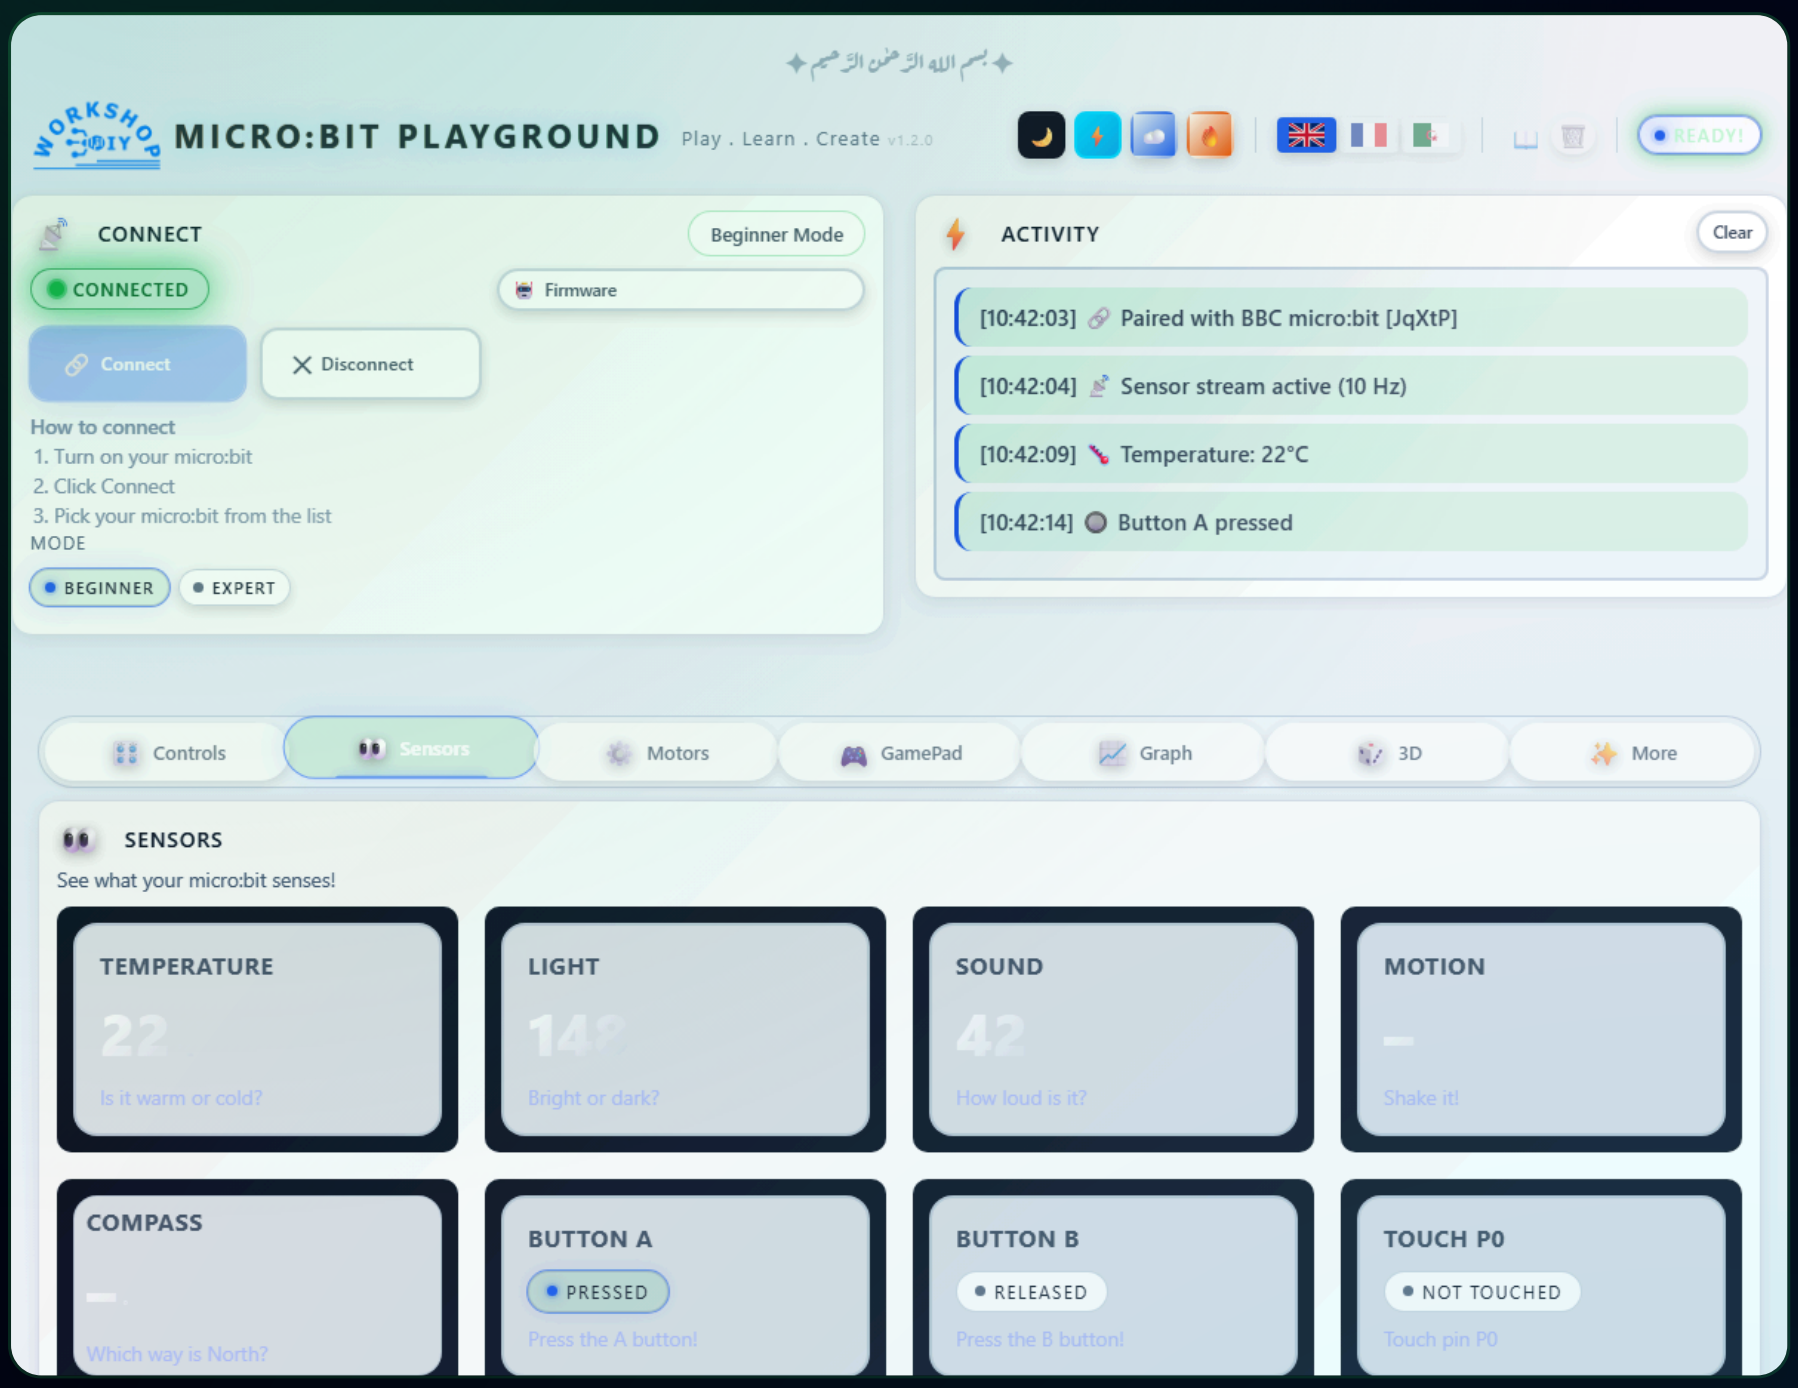
WEB BLUETOOTH · MICRO:BIT V2

Every sensor.
Live in every browser.

Classroom-ready control panel. 30 laptops. Zero install.



Live sensors

Temperature, sound, light, accelerometer, compass — all streaming in real time.

Full control

Paint LEDs, spin servos, drive motors. Record CSV sessions for lessons.

Live 3D mirror

A photoreal board tilts with your micro:bit. Kids see the physics click.
